PURPOSE AND TARGET AUDIENCE

The purpose of this one-day symposium is to update the knowledge and enhance the skills of oncology nurses, advanced practice nurses and social workers by providing evidence-based content applicable to the management of cancer patients and their families. The day offers a blend of clinical and relationship-centered topics applicable to both inpatient and ambulatory oncology practice settings.

SYMPOSIUM OBJECTIVES

1. Rekindle the passion and sacred moments you experienced as a new health care provider.
2. Describe the impact of engagement and commitment on extraordinary patient care in terms of both clinical outcomes and human compassion.
3. Describe innovations related to evidence-based cancer care.
4. Discuss clinical issues and current trends in cancer practice including state of the art pancreatic cancer care, managing the GI side effects of cancer treatment, safe handling of chemotherapy drugs and updates on newer chemo and biotherapy agents.
5. Network with professional colleagues regarding excellence in cancer care.

WHY YOU SHOULD ATTEND

- Learn the latest evidence-based practices and tools related to the management and care of cancer patients and their families.
- Good blend of theory with clinical application
- Time for discussion integrated throughout the day
- Combination of hard-hitting clinical content and professional development sessions
- Expert speakers whose clinical practice involves challenges similar to yours
- Return to your practice setting reinvigorated and assured that cancer care is where you belong!

YOU CAN LEARN AND HAVE FUN DOING IT!

When asked how they planned to apply what they learned, last year's participants said:

- *Learned how to prevent burn out on the job. Best advice I've ever heard on the subject.*
- *Can use many items from the oncology emergencies in my everyday work.*
- *Nurses' panel was most applicable to my practice and very impressive (speakers)!!*
- *Be sure I get notified of next cancer symposium. This was the best informative educational seminar I've been to for a long time!*

And, learning was fun!

- *I thought this was the best conference I have attended in a very long time, hope to be able to come to future events.*
- *Loved the case studies and videos.*
- *All speakers were extremely knowledgeable and great teachers! Very, very helpful information.*
- *Excellent panel discussion on oncology emergencies.*
- *The presenters were fun, caring, knowledgeable, REAL people... not just clinicians. I loved it and would come again if it's offered.*
- *Excellent mix of topics, interesting speakers, comfortable environment, conducive to learning.*
- *I thoroughly enjoyed the case study panel. I always learn a lot with the speakers who interact with the audience.*
- *Good vendors, food was great, good location.*

FEATURED SPEAKER

Rich Bluni, RN, Expert Coach, the Studer Group

Rich Bluni is a national speaker, best-selling author and expert coach, but the title of which he is proudest is "Nurse." An RN since 1993, he chose the profession after seeing the tremendous impact nurses had on his father

after he was diagnosed with terminal cancer. "I saw the great and small things nurses accomplished in their day and realized that there was no higher calling, for me, than to become a nurse," he says.

He joined the Studer Group Team in 2007 as an expert coach assisting healthcare organizations in implementing the Evidence-

Based Leadership Framework. As author of *Inspired Nurse* and *Inspired Journal*, and co-author of *The Nurse Leader Handbook*, Rich reminds nurses and all healthcare employees why we chose our profession. His personal stories illuminate those sacred moments we all experience. *Inspired Nurse* is a welcome validation that when we stay engaged and committed, we're more likely to provide extraordinary patient care - in terms of both clinical outcomes and human compassion.

Rich believes that: "The passion healthcare workers have for their profession is rivaled only by the tremendous difference that they make in the lives of the people that they touch. It is through the minds and hands of these special human beings that suffering is alleviated, comfort is brought and human excellence is exemplified."

AGENDA

7:15 Check-in and Continental Breakfast

Visit Exhibits and Health Sciences Bookstore. *(Come early to visit exhibits. This is the best time to do so as exhibit times are limited throughout the day.)*

8:00 Welcome and Introductions

- Shirley J. Farrah PhD, RN, BC, *Assistant Dean and Associate Teaching Professor, Nursing Outreach and Distance Education, MU Sinclair School of Nursing*
- Kristi K. Gafford, MBA, MPH, *Executive Director, Ellis Fischel Cancer Center*
- Representative from Central Missouri chapter, ONS

8:15 Inspired Care - Rich Bluni, RN, *Expert Coach, the Studer Group*

Few other professions afford the opportunity to impact lives on such a profound level, not only physically but emotionally and spiritually as well. Yet the same qualities that make healthcare so deeply rewarding can also make it a challenge over time to sustain your energy and passion. **Inspired Care** helps us maintain and recapture those elusive qualities. Healthcare workers must also take care of “self” in order to be able to do the challenging physical, emotional and intellectual work that it takes to serve others.

In this thought-provoking and inspirational presentation, Rich Bluni, RN, Author of *Inspired Nurse*, reminds all healthcare providers why we chose this profession. He provides a wealth of action-oriented “spiritual stretches” that help us more fully integrate the gifts of healthcare — joy, wonder, gratitude, insight and grief — into our daily lives. His personal stories illuminate those sacred moments we all experience. **Inspired Care** is a welcome validation that when we stay engaged and committed, we’re more likely to provide extraordinary patient care - in terms of both clinical outcomes and human compassion.

Objectives:

1. Discuss the value of “inspiration” in your healthcare journey.
2. Describe at least two exercises/techniques that you can incorporate into your healthcare journey to help you feel connected or reconnected to purpose, passion and inspiration.

9:45 Beverage Break - Visit Exhibits

10:00 State of the Art in Pancreatic Cancer Care

Michael B. Nicholl, MD, *Assistant Professor of Surgery (Surgical Oncology)* and Rashmi Ramasubbaiah, MD, MS, *Assistant Professor of Clinical Medicine (Medical Oncology)*, both speakers with University of Missouri/ Ellis Fischel Cancer Center

In response to requests from last year’s conference participants, this session will include a comprehensive

overview of pancreatic cancer care including initial presentation, diagnosis and treatment including current therapies and recent advances in the surgical treatment of pancreatic cancer.

Objectives:

3. Discuss best practices in pancreatic cancer care including initial symptomatology, workup, diagnosis, and treatment recommendations.

11:00 Stretch Break

11:05 Inspired Care, Part II (Continued)

12:05 Hosted Luncheon

1:00 Managing the GI Side Effects of Cancer Treatment Panel Presentation

Cancer treatment can result in multiple GI side effects that are challenging to manage. A multidisciplinary panel of cancer care professionals, with over 85 years of experience, will discuss practically useful tips on how to manage side effects such as nausea, vomiting, diarrhea, taste changes, anorexia and lesions of the oral mucosa.

Using a case study format, helpful hints and evidence-based strategies will be shared by these experts in cancer care.

Moderator: Jeanne Shellabarger, MS(N), ACNS-BC, *Adult Clinical Nurse Specialist, Surgical Oncology, Ellis Fischel Cancer Center*

Panelists: all from Ellis Fischel Cancer Center

- Eris Zagar, MS(N), RN, AOCN, *Clinical Nurse Specialist (Medicine-Hematology & Oncology)*
- Mary Johnson, MSN, RN, AOCN, *Clinical Nurse Specialist (Medicine-Hematology & Oncology)*
- Jill Crossland, RD, *Clinical Dietitian*
- Donna Winberg, BSN, RN, OCN, *Staff Nurse, Ambulatory Infusion Unit*

Objectives:

4. Using a case study format, explore practically useful and evidence-based interventions to assist patients and their families in managing the GI side effects of cancer treatment.

2:15 Stretch Break

Continued on following page

Agenda, continued

2:20 Safe Handling of Chemotherapy and Biotherapy Agents - Carol Ann Jameson, BSN, RN, OCN, Staff Nurse, Ambulatory Infusion Unit, Ellis Fischel Cancer Center

This session will include an overview of best practices related to the precautions needed when administering these potentially toxic agents.

Objective:

5. Discuss safe measures associated with handling chemotherapy and biotherapy agents.

2:50 Refreshment Break - Visit Exhibits

3:05 Update on New Drugs in Oncology and Overview of Monoclonal Antibodies – Debra D. Tesoro, RPh, BCOP, Director of Pharmacy/PIC, Missouri Cancer Associates/ Missouri Cancer Care Pharmacy, US Oncology, Columbia

This session will include an update of the newer chemotherapy agents as well as biotherapy agents. Mechanism of action and management of the most common side effects and drug interactions will be included.

Objectives:

6. Discuss the newer chemotherapy agents including how they work, and management of side effects and drug interactions.
